Do. do.	1	19th February 1933.
Do. do.	1	23rd March 1933.
Do. do.	1	9th April 1933.
Do. do.	1	1st July 1933.
Do. do.	1	15th October 1933.
Do. do.	1	16th November 1933.
Do. do.	2	16th January 1934.
Do. do.	1	16th February 1934.

* To be filled up in the Ordinary Grade.

APPENDIX III.

[Vide answer to question No. 857 asked by B. Pocker Sahib Bahadur at the meeting of the Legislative Council held on the 24th March 1934, page 775 supra.]

G.O. No. 136 W., dated the 12th January 1934.

Under sub-section (2) of section 9 of the Indian Electricity Act, 1910 (as amended), the Government permit the assignment of the Calicut Electric Licence, 1927, to the West Coast Electric Supply Corporation, Ltd., Madras, subject to the following conditions:—

(1) The assignees shall arrange to carry out before the 15th April 1934 extensions and improvements to the generating plant and distributing system to the satisfaction of the Chief Engineer for Electricity, and should be prepared to invest at once such

[24th March 1934

amount over and above the purchase price as the Chief Engineer may consider necessary for this purpose as well as for the purpose of rectifying the existing defects and defaults completely;

(2) the assignees shall as soon as possible and in any case before the 15th April 1934 liquidate all the debts incurred by the licensee in respect of the electric supply undertaking covered by the Calicut Electric Licence, 1927, and shall on or before that date satisfy the Government that they (the assignees) have placed the undertaking in a thoroughly satisfactory condition and are in a position fully and efficiently to discharge the duties and obligations imposed on them by the licence; and

(3) irrespective of the authorized capital of the assignee company, the approval of Government in writing should be obtained before shares in excess of Rs. 5 lakhs are offered for subscription.

2. It is observed from Mr. T. N. Krishnaswami's second letter, dated 11th January 1934, that the rates for domestic supply will be reduced as early as possible. The assignee company should on completion of the purchase submit to Government an application for an amendment of the licence providing for these reduced maximum rates and also for reducing the maximum rates for other classes of load provided in the licence. In making this application, they should have due regard to the standard rates usually approved by the Government in similar licences granted after August 1932.

3. The attention of the assignees is also specifically drawn to clause (*e*) of the third annexure to the Calicut Electric Licence under which it is obligatory on them to take bulk supply from a cheaper hydro-electric source when it becomes available and they are informed that as soon as power from the Pykara or other Government Hydro-Electric Scheme becomes available in the area they will have to purchase all their power requirements in bulk from Government.

4. With reference to clause (9) of the agreement, dated the 2nd January 1934, between the licensee and the purchasers the attention of the assignees is drawn to the fact that the security deposits furnished by the consumers cannot be appropriated either by the present licensee or his assignees and the assignees are informed that the Government will hold them responsible for the amount.

5. Separate orders will issue in due course on the terms of the Managing Agency agreement between the assignee company and Messrs. Chadrie & Co., a copy of which has been received with Mr. T. N. Krishnaswami's first letter, dated 11th January 1934.
